***Please remember that insurance is considered a method of reimbursing a patient for fees paid to the provider of medical services and is not a substitute for payment. Some companies pay fixed allowances for certain procedures, and others pay a percentage of the charge. It is your responsibility to pay any deductible amount, co-insurance or any other balance not paid by your insurance.

***This assignment will remain in effect until revoking by me in writing. A photocopy of this assignment is to be considered as valid as an original. I understand that I am financially responsible for all charges whether or not paid by my primary health insurance center (if Medicare 20% of charges)

Medicare Reimbursement

Please let this letter serve as a notice regarding Medicare guidelines on reimbursement for outpatient physical therapy. Currently the annual allowable reimbursement for physical therapy is limited to \$1860.00. Medicare will pay 80% of this amount; your secondary insurance will pay their responsibility. If that amount is exceeded the patient becomes responsible for the excess balance. ** Therefore, we make it our policy to inform the patient of an approximate time when that amount is reached. It generally takes about 12 visits, but it could take fewer or more visits based on the type of treatment and modalities that are used. If you have any questions, please feel free to address them with the front desk staff or the management.

Sincerely,
Zarett Rehab Management

**In a few cases the secondary insurance will continue beyond the point of allowable reimbursement limit being reached. We will make you aware of that and physical therapy may continue.
